SAMİ COKSAN

Research Assistant

About Me

I am interested in three related topics: social identity, intergroup conflict, and disadvantageous groups – situations though I like to read PC games and behavior relation literature. Generally, I prefer to use both experimental and qualitative technics. I try to follow new subjects in the area and enjoy to learn particularly old or new statistical methods. I am prone to cooperation. I study systematic and open for teamwork and new collaboration, please contact me.

Education

2016-Present
Middle East Technical University, Department of Psychology
Social Psychology
I passed the Ph.D. qualifying exam in November 2018 and experienced teaching assistant for undergraduate courses such as Social Identity, Cultural Psychology, Social Psychology, Ethics, Political Psychology and graduated courses such as Advanced Statistics. During Ph.D. I learned advanced data collecting and statistics methods, also different paradigms.

2014-2016
Mersin University, Department of Psychology
Social Psychology
I taught Social Psychology undergraduate courses for three semesters and experienced teaching assistant for Applied Social Psychology graduate course. During master, I learned qualitative methods and SEM. I study "The Moderation Effect of the In-Group Norm on Effect of In-Group Identification on In-Group Bias" in my master thesis.

2010-2014
Uludag University, Department of Psychology
During bachelor, especially I get the social and cognitive courses such as Cultural Psychology, Environmental Psychology, Process of Thinking and Decision-Making. One semester I was an Erasmus exchange student in Turin, Universita Degli di Studi Torino. I finished my bachelor with a study entitled "The Relationship Between Playing Violent Computer Games and Social Distance Toward Arab and American Society".
